

HI, I'M HANS.

SOFTWARE DEVELOPER & PLATFORM GUY

Lead Developer & Platform at **Neolink** · Berlin → Bangkok

Full-stack developer with more than a decade of experience and a centre of gravity in backend and infrastructure. I've shipped e-commerce platforms serving millions of users, led development teams, and currently build supply-chain and cold-chain systems — from webhook-driven IoT pipelines to per-customer Kubernetes clusters deployed via GitOps. I care about developer experience, boring reliable infrastructure, and clear ownership.

// EXPERIENCE

OCT 2023 — TODAY

LEAD DEVELOPER & PLATFORM

Neolink · Bangkok (remote)

Backend and infrastructure lead at Neolink, a supply-chain visibility platform for freight forwarders (live shipment tracking, live map, risk radar, CO₂ reporting).

- Build and own the shipment-tracking backend: Node/TypeScript services on MongoDB, ScyllaDB and MySQL, running on Kubernetes.
- Designed the geofence-based delivery detection for the BeeBox360 cold-chain project (IoT-tracked temperature-controlled boxes for pharma) — three-fence state machine, async webhook workers, automatic cold-chain certificates.
- Driving the move to per-customer infrastructure on DigitalOcean: central admin cluster (ArgoCD, Vault, monitoring, identity), one Kubernetes cluster + databases per customer, everything defined in Git — onboarding a customer is a pull request.

Team Leadership

HANS BÖSE

// EXPERIENCE (CONTINUED)

AUG 2019 — AUG 2021

TEAM LEAD & SENIOR SOFTWARE DEVELOPER

reBuy reCommerce GmbH · Berlin

Led the web team while staying hands-on: regular 1on1s, team-lead syncs, and close work with stakeholders across departments to hit company OKRs.

- Rebuilt the buy-shop, sell-shop and my-account portal on Symfony 4 / PHP 7.4 / Angular 11.
- Shared Symfony bundles across shops; introduced Psalm into CI; integrated the Wasabi A/B-testing platform.
- Java 11 / Spring Boot microservices, Solr 8 search improvements, Thumbor image service.

AUG 2016 — AUG 2019

SOFTWARE DEVELOPER

reBuy reCommerce GmbH · Berlin

New and existing microservices, A/B tests, bug fixing, dependency upgrades — Jira, weekly planning, daily stand-ups. Also kept the legacy Zend Framework 1 shops alive.

SEP 2014 — JUL 2016

TRAINEE DEVELOPER (DUAL VOCATIONAL PROGRAMME)

reBuy reCommerce GmbH · Berlin

German dual system: two weeks in the company, one week at school. Passed the final IHK examination.

// EDUCATION

2014 — 2016

IHK FACHINFORMATIKER FÜR ANWENDUNGSENTWICKLUNG

IT specialist for application development · reBuy / OSZ
IMT Berlin

2007 — 2010

IHK MEDIENGESTALTER BILD UND TON

Media designer for video / audio · L4 Institut für Digitale
Medien

// REFERENCE

"Mr Böse was an extremely committed employee whose work ethic and drive to get results made him particularly convincing ... his performance has always met our exacting requirements splendidly."
